

ACW Solutions Limited Achieves Microsoft Gold Certified Status

8 February, 2006 – **ACW Solutions Limited** has attained Gold Certified status in the Microsoft Partner Program. As a Gold Certified Partner, **ACW** has demonstrated expertise with Microsoft technologies and proven ability to meet customers' needs. As Microsoft Gold Partners, the privilege gives them a competitive advantage in the marketplace.

As a Gold certified partner, **ACW** has demonstrated technical expertise with Microsoft technologies. Their experienced and certified consultants are expertise in the area of ERP consulting and provide value and quality advice to all their customers

"We are extremely pleased to achieve Gold Status. This allows us to clearly promote our expertise and relationship with Microsoft to our customers," said Andy Lau, Managing Director of **ACW**. *"The benefits provided through our Gold Certified Status will allow us to continue to enhance the offerings that we provide for our customers."*

"Customers are looking for partner companies that can bridge the gap between their business demands and technology capabilities. They need to trust in someone that can act as an expert adviser for their long-term strategic technology plans. Microsoft Gold Certified Partners, which have certified expertise and direct training and support from Microsoft, can build a positive customer experience with our technologies," said Allison Watson, vice president of the Worldwide Partner Sales and Marketing Group at Microsoft Corp. *"Today, Microsoft recognizes **ACW** as a new Microsoft Gold Certified Partner for demonstrating its expertise in providing customer satisfaction with Microsoft products and technology."*

As one of the requirements for attaining Gold Certified Status, **ACW** had to declare a Microsoft Competency. Microsoft Competencies are designed to help differentiate a partner's capabilities with specific Microsoft technologies to customers looking for a particular type of solution. Each competency has a unique set of requirements and benefits, formulated to accurately represent the specific skills and services that partners bring to the technology industry.

The Microsoft Business Solutions Competency is designed for partners with proven expertise in designing and/or implementing enterprise resource planning (ERP) and customer relationship management (CRM) capabilities with Microsoft Business Solutions technologies. Microsoft solutions partners have capitalized on this opportunity to help organizations develop and build integrated ERP and CRM solutions around Microsoft technology. The Microsoft Business Solutions Competency allows partners to identify their unique, proven proficiency in deploying Microsoft Business Solutions applications such as Microsoft Business Solutions–Axapta[®], Microsoft Business Solutions–Great Plains[®], Microsoft Business Solutions–Navision[®], Microsoft Business Solutions–Solomon, and Microsoft Business Solutions–Microsoft CRM.

"Microsoft partners that specialize in business applications meet a unique market need," said Tami Reller, corporate vice president of Microsoft Business Solutions. "We are rolling out programs and initiatives such as the Microsoft Business Solutions competency that are designed not only to bring continuity to partners in how they work with us, but also to provide partners with a way to showcase their expertise in ERP and CRM to customers who depend on them for services."
